Advising tips about "Important Dates"

- If you are on a waitlist for a course and find out you've been accepted into it, then please note that you will still need to ADD the course officially. Instructors cannot add or drop courses on your schedule.
- If you wish to add a course, you should do so as early in the semester as possible. Even though you have 2 weeks, it will be difficult to catch up in a course that you have not been attending all along.
- Drops: Until end of 7th week (Oct 18), no indication on record. You might find it helpful to discuss any changes to your schedule with your instructor, faculty advisor, and advising dean.
- Withdrawals: can petition until end of 12th week (Nov 22), but absolutely not after that (must finish the course after that...only 14 weeks of instruction!) Must see advising dean to get the petition. All petitions will require signatures of your faculty advisor and sometimes the course instructor, so don't wait until the last minute. Paperwork must be TURNED IN at 55 or 172 GS by end of day of deadline! (W for drops after October 18th, even if never attended.)
- S/U option ("Student option" in PeopleSoft): intended to allow students to try a new, "difficult" course, working as hard as possible in it but knowing they probably are not competitive with more advanced classmates to get a good grade...but not doing terribly, either.

If you are considering taking a course S/U, please keep in mind that S/U is NOT same as pass/fail (takes a C- to get S, D+=U)
